

[Historic Atlas of Kansas Counties](#)  
an abridged atlas of county and city maps from  
"The Official State Atlas of Kansas, Everts & Kirk, 1887"

The Historic Atlas of Kansas Counties (Zones 1-12) CD is a complete set of 1887 Kansas county maps. Each of the 12 Zones consists of a series of 8-10 bordering county maps making up all 106 [Kansas counties](#). Each Zone Atlas contains high resolution scanned images of vintage 19th century county and city maps that are presented in Adobe Portable Document Format (PDF). Individual Zone CD's are available as well.

In addition to all 106 Kansas county maps, there are nearly 800 [city and village](#) maps on this CD. City maps and plans are often more detailed and include the names of many original property owners, businesses, municipal buildings, etc. Please note: some small city and village map plans include street and lot detail only.

Maps include the following 19th century features:

- \* roads, railroads and canals
- \* cities, towns and villages
- \* post offices and government sites
- \* one-room schoolhouses, churches and cemeteries
- \* rivers, streams and ferries
- \* racetracks, fairgrounds and picnic groves
- \* industrial sites, furnaces and mills
- \* early homesteads and farms
- and much more

The Historic Atlas of Kansas Counties may be an invaluable aid to Genealogists, Historians and researchers in search of 19th century Kansas places and place names. These early maps often contain many places that no longer exist or that have been obscured over time; the location of property owners, businesses, churches and cemeteries may assist genealogical researchers interested in Kansas history.

The Adobe Acrobat Reader for MS Windows is needed to view, zoom, pan and print from the PDF map images contained in this atlas, and is included free on each CD. No other software is necessary.
